## **Change In offer:**

We reserve the right, in our sole discretion, to revise any offer included in this document at any time. Any changes to these terms will be included in a revised version of this document. Your continued use of the document and any related services following posting of any changes to this Agreement constitutes your unconditional acceptance and agreement to be bound by the changed terms. You must cease using the document if you do not agree to be bound by the revised terms and conditions.

# How does Custom Plan Capability work?

- Practitioners can pre-document their preferred plans for any Problem in MDlog. So when they select that problem while recording an Assessment in the clinical note, their preferred plans for that problem show up for quick selection enabling documentation of the Plan with a click.
- This allows Practitioners to save time by quickly documenting plans for frequently diagnosed problems.
